

10th ELA Curriculum Map Overview

The TCSS ELA Curriculum Maps are designed to focus on the Georgia Standards of Excellence (GSE) throughout four units of study. The ultimate goal of these standards is for teachers to spend more time going deeper with complex texts, rather than cover more texts that are less complex. New standards documents have been created at each grade level to provide an emphasis on what students should know and be able to do, as well as suggested teaching strategies for the standard.

Each TCSS ELA Unit Curriculum Map includes a thematic focus/unit goal, essential questions (EQs), priority and support standards, suggested assessments, key vocabulary of the standards, and a series of model lessons (including resources and materials). Model lessons may run longer than a typical class period as they may require direct instruction on 1-2 priority standards. Each unit provides a list of literary and informational texts that have been purposefully selected, as well as writing prompts that focus on the primary writing mode (Argumentative or Informative/Explanatory) for the unit. When considering how to implement the units, teachers will want to spend more time upfront in choosing appropriate texts and activities that will allow them to teach the standards at a level that will further student learning. For example, teachers will want to focus on teaching students how to evaluate the author’s purpose and message and understand the rhetorical devices authors use to successfully convey that message.

In any given classroom, there is a range of student needs. To accommodate that reality, this curriculum is designed to be flexible in terms of day-to-day implementation, but with specific planning. Within the units and across the year, the design of the curriculum maps allow teachers the flexibility to make responsive teaching decisions based on their students’ needs. While some lessons provide detailed instructions or recommendations, it is important to note that the lessons are not scripts, and they do allow for teacher preference and flexibility to ensure that what is happening in the classroom both meets the needs of students and is in service of the shifts and the standards. Teachers will have to make decisions, as they always have, around what is most appropriate for their students, while ensuring students are moving towards mastery of the standards.

Student work should:

- move beyond the reproduction of information to the construction of knowledge and deep understanding,
- emphasize elaborated communication, extended writing supported with evidence, and
- emphasize real-world connections.

While all maps have key priority standards for each unit, on-going GSE Standards have also been integrated into the maps. These standards are part of on-going instruction throughout the year. The ongoing standards listed below may not be listed in each unit, but can be accessed via the TCSS ELA Standards Documents and Scope and Sequence for each grade level.
