**Protocol:**  
 \*Anyone wearing a mask appropriately and not exhibiting symptoms, does not have to be quarantined no matter the vaccine status.

\* \*Anyone who is fully Vaccinated (10 days past the 2 nd Moderna/Pfizer shot OR past the J&J shot) does NOT have to be quarantined, provided they have no symptoms! This applies to whether you are wearing a mask or not wearing a mask.

**Examples:**  
 \*If Johnny tested positive for COVID he would have to be quarantined for 10 days with the day of first symptoms being a 0 day. His quarantine would start the next day and he must quarantine for 10 days. He may return to school on the 11th day.

\*If Mary is in direct contact with someone that tests positive for COVID, she does not have to quarantine if she was wearing a mask. However, if she had her mask off for more than 15 minutes at one time and is NOT vaccinated then she would have to quarantine for 10 days. She could take a test on day 5, 6, or 7 and could come back to school with a negative test result on day 8 provided she didn't have any symptoms.

\*If Johnny tested positive for COVID, then contract tracing starts 48 hours before the first sign of symptoms or test date if not showing any symptoms. Anyone that was in direct contact with Johnny for more than 15 minutes at one time, NOT vaccinated and not wearing a mask must quarantine.

\*\*\*ThINC Student Numbers are already included with base school
